ABOUT ME

I'm a Software Engineer with experience and extensive training on software development and software design.
I'm known for my dedication and uplifting energy. I'm always striving for resilience and never shy away from a good challenge.
Pro team player, available and above all a problem solver.
Hobbies: Good food, a light backpack trip and I humble myself everyday at the gym.

Software Engineering / C# / .Net Framework / .Net Core / SQL server / ASP.NET MVC / JavaScript / Experience with Source Code and Version Repository Experience working within an Agile Scrum Team.
